Exploring Visual Worlds of Education in Context of Crises and new Spaces of Opportunities

We move forward together after postponing our 2020 conference planned for in June 2020 with the same main theme **Exploring Visual Worlds of Education** and by widening the strands, opening up for addressing our ever-shifting global context.

Our 2021 *hybrid* conference will feature both asynchronous and synchronous events. The *asynchronous* events will consist of pre-recorded presentations from the key notes and artistic events. The paper sessions, symposiums and workshops will be synchronic events following a time and place schedule. A limited number of workshops will be held on site (Norway, Bergen campus) and can be attended virtually. Detailed information of the conference can be found here: <https://www.hvl.no/en/research/conference/VisualworldsofEducation/>

Timeline:

Deadline for abstracts: **March 20th** guidelines for submission:

<https://www.hvl.no/en/research/conference/VisualworldsofEducation/abstract-guidelines/>

Response from reviewers: **April 20th**
